About The Organisation

CBM is a Christian international development agency.

Fighting poverty and exclusion, and transforming lives, CBM works alongside people with disabilities in the world's poorest places. The drive is to be an authentic ally for people with disabilities. In this, CBM is a catalyst for change; leveraging the actions and resources of others- partners, clients, and supporters- to help achieve much greater reach and influence than what's achieved acting alone.

CBM Australia works globally, supporting around 40 partners across 42 countries. While an independent entity, CBM Australia is also a member of CBM Global; alongside 5 other Member countries committed to inclusive governance and building strengthened communities where rights are realised.

CBM Australia is an ACNC registered Charity and trusted DFAT partner.
